ANCHO MILL READY SOON AS POWER SUPPLY ADEQUATE MADE AVAILABLE

Tunnel Face Discloses Strong Ore Shoot Showing Good Values All The Way

Work at the Ancho Mine is being vigorously prosecuted despite lack of power and the results attained are disclosing conditions that appear favorable for the future operation of the property.

The main tunnel face is being advanced slowly and shows a strong and persistent ore shoot running somewhat better in value than expected. Each foot of advance is developing close to 100 tons of potential ore above the tunnel level so the extent of the shoot is being watched with interest. A crosscut from the main tunnel is being driven by hand to intercept the main Ancho vein at its intersection with a cross vein. An ore shoot at this points seems reasonably assured. The upper tunnel, which was caved for most of its length, is being cleaned out to serve as a connection for raises and stopes from the main tunnel and to serve as an additional means of entry to the mine.

The situation in the mine is proving satisfactory and all work done to date discloses further reason for believing that the mine is potentially a valuable future producer. The ten stamp mill is ready to run as soon as power is available and while the Yellow Tiger Company does not anticipate a large margin of profit from a mill of this size, it is expected that it will serve fully to work out the metallurgy best adapted to the ore and meantme development will be pushed forward with all possible speed to prove definitely that the mine warrants a larger mill. All indications lead to the belief that a large tonnage can be readily developed and while it is expected to be low grade, proper metallurgy and ample size of plant should make it profitable.

Full consideration is being given by the Yellow Tiger Consolidated Company to the matter of future dependable power. Figures are being assembled on several different kinds of installations which might prove suitable to the conditions. However, in common with neighboring property owners the management of the Ancho is disposed to view the matter of power from the broad aspect of the entire district. The mining future of the Washington Graniteville belt is a promising one. The entire district is a potential user of power to a very important extent. Tremendous ultimate economies would be realized if some power service which would care for the future of the section in a broad way could be arranged.

Th Yellow Tiger Company also holds an option on the Gray Eagle or Gold Point mine above Downieville and spent several thousand dollars last summer and fall in cleaning out and sampling the mine. Very large potential reserves of low grade ore are indicated from this work and metallurgical tests are being made to determine the feasibility of treating the ore. The mine has promise of being a very heavy can be economically worked out.

BASKETBALL CONTESTS PROVED CLOSE ONES

The basketball contests staged between Grass Valley and Nevada City on the local court Friday night were fast ones but the locals only succeeded in snaring one of them, the B game. Grass Valley won the A contest 2 to 14 and the C 29 to 9 while the B game was 11 to 9.

The rooting was on a much better order than has pervailed in some previous contests which is to be recommended as it will mean the re-entry of the local schools into the state league.

Mr. and Mrs. Chas. W. Leiter are visiting relatives in the bay region for a few days.

Mr. and Mrs. R. A. Barnes had as guests, Mr. and Mrs. C. L. Dunklee and daughter, Esther May, of San Francisco.

JOHNSON HAS TUNNEL IN 170 FEET NOW

Charles H. Johnson of Marysville who has been operating the neocene River Gold Company, at Round Mountain, under bond and lease from Henry Goering has his tunnel in 170 feet now. The tunnel is going through the rim of the channel having been in hard rock the past 65 feet and is expected to cut the channel shortly.

MINING LOCATIONS ARE PLACED COUNTY RECORD

The following mining location has been filed for public record—

Whitlock quartz claim in Washington Mining District by M. Crowley et al.

PAY CHANNEL STRUCK UNDER CEMENT HILL

A local company struck the pay channel under Cement Hill Friday according to advices reaching this office. News of the find reached here Saturday but pending official release of the information the name of the operating company is withheld.

COMPRESSOR WORKING AT PIONEER PROPERTY

The new compressor at the Pioneer has been set up and put in operation the past few days. One drill is bein used in extending the south drift which is following the course of the main vein. Ore values are encouraging.

It is expected to extend the drifts on the 70 level in both diretcions to determine the extent of the ore shoot.

Lassen and Gibson are opening up the property under a bond and lease from C. C. Mitchell, the owner. Consirerable acreage is included in the Mitchell holdings and with the enormou sproduction of the adjoining Idaho Maryland in past years, make this property a promising one.

INQUIRIES COMING IN ON MINING PROPERTY

The story run in last week's paper for an available mining property in this section has brought a large number of inquiries to this office. All mine owners who list their properties with this office will have the best opportunity to come in touch with the investing public. Our listing is free and no brokerage is charged.

The inquiries have been turned over to the company making the request.

MRS. MARY HOOPER IS VICTIM GRIM REAPER

Mrs. Mary Hooper, for over a half century a resident of Nevada City passed into the Great Beyond last Thursday morning after an extended illness of some months. Funeral services were held yesterday afternoon from the Holmes Funeral Home with the members of Neva Rebekah Lodge attending in a body.

Deceased was born in England March 4th, 1853 and came to Nevada City in 1871. She was married in 1873 to John Hooper, who proceeded her to the other shore some years ago. Surviving are three sons, Fred and William of Nevada City and John of Richmond; one daughter, Mrs. Edith Valentine. Grandchildren are Edword, David and Calvin Valentine, Sammy Hooper and Mrs. Dorothy Smith, the latter of Berkeley.

Mrs. Hooper was widely known for her many womanly qualities.

Postmaster P. G. Scadden is slightly ill at his home in Nevada City.

$16619 PRODUCED BY THE MERGER ANNOUNCEMENT

Eight Months Showing Is An Encouraging One Says The Stockholders Statement

Production at the Westrn Merger mine for the eight month period from May 1st to January 1st is given as $16,619.92. There were 1337 tons of ore milled having an average value of $12.50 per ton. The property was operated 352 days and the development work totalled 3696 feet. This is given in the annual report to the stockholders released to

Future development depends on the ore encountered on the drift into the Jackson ground and the drift east on the A vein. The drift to the Jackson vein is expected to cut into the ledge at any time.

The property is excellently equipped with surface works, an electric hoist and compressed air for running the drills.

EAST BELT MINE REPORTED SOLD THE PAST WEEK

Papers Being Drawn Up On Large Property Which Has Former Production Record

Papers are now being drawn which provide for the transfer one of the large mines on the east belt near Washington to a large operating company. With the increased activity on the Gaston Ridge this spring it would not be surprising to see the east belt regain some of its former prosperity, provided an adequate supply of power is assured. That has been the drawback to that section of the county.

With the activity evident at the Gaston, Ancho and Spanish properties, the extension of the Alleghany power line from the new extension to the German Bar should not be a difficult feat for the comparatively few miles needed to bridge the gap.

HISTORY OF HYDRAULIC MINING IS INTERESTING ONE

By JAMES D. STEWART, E. M.

(This is the third of the series of articles on the hydraulic situation, the second one being on another page of this issue.)

As soon as the $10,000.00 appropriation was available Arthur Jarman appointed by Root and Kingsbury took to the field to see just what gravels could be worked, what facilities there were for working them, their probable value and just where and how they could be stored in the most economical manner without injury to the rivers below or the lands adjacent thereto.

The California Debris Commission cooperated in making surveys and estimates of the amount to be stored behind various dam sites.

Every district where there was any probability of the gravels being worked at a profit by the hydraulic process was visited.

The writer accompanied Mr. Jarman on a considerable portion of these investigations and has a full realization of the handicap under which he worked. The appropriation wa stoo meager to make detailed surveys and most properties had been inactive so long that if they ever kept any records no one knew where they were. However, the obstacles were met as best they might the report was finished and presented to and accepted by the Legislature of 1926-27.

Thereupon, Harold C. Cloudman, author of the original appropriation of $10,0000.0, introduced Assembly Bill No. 681 calling for an appropriation of $300,000.00 to purchase the necessary dam sites and bore them that the necessary data might be gathered to more closely estimate the cost of the dams and the actual storage of the basins behind them. This sum was reduced in Committee with the consent of the author to $200,000.00

The bill was referred to the mining committee of the Assembly, and was reported out without the opposition showing any strength. From there it went to the ways and means committee. A public meeting was called in the Assembly chamber on March 28, 1927. Speaking in favor of the bill were: Congressman Harry L. Englebright, Frank Nilon and Judge Ragland Tuttle of Nevada City and the writer from Auburn. Robt. T. Devlin led the opposition. The Assembly chamber was packed with proponents and opponents of the measure. It was sent out of the committee by a 15 to 4 vote with a recommendation that it "do pass".

The next step was the battle on the floor of the Assembly led by Cloudman, ably aided by those of his colleagues who had been roused to a sense of fair play. The bill won here by a vote of 44 to 27. Noyes of Sutter county gave notice of reconsideration. This was beaten by a vote of 36 to 41. The bill was then on its way to the mining committee of the Senate. It came out of the committee by the scant margin of one vote. From there it went to the Senate finance committee. Here it met its first waterloo. This committee by a vote of 10 to 6, tabled it.

The hydraulic miners were not whipped yet however, and led by Senator Christian, ably seconded by Senators J. M. Allen, Hurley and others, a resolution was introduced to take the bill out of the committee to the floor of the Senate. Thanks to the ability of our friends this fight was won. The bill now came to the floof of the Senate and the hydraulic miner will ever owe a debt of gratitude to Senator Christian and his able aides for the battle they put up in their behalf.

After the show of strength by the bill's supporters, the opposition was wary and tried to kill it by soft soap methods. The foes of hydraulic mining introduced an amendment to provide an appropriation of $15,000.00 for further investigation, etc. The miner's friends would have none of this, as the matter had been investigated for 45 years, and the amendment was voted down 20 to 17.

Next came the vote of the bill. The proponents mustered 19 votes and the opposition 18. The call of the house was put in effect, which means all inside must remain and the Sergt.-at-Arms rounds up the absentees. Senator Sharkey hurried in to add his vote to the miners side and the vote stood 20 to 18. Taylor could not be found and Nelson was ill in the hospital. At this juncture a Senator agreed to change his vote from nay to aye if the call of the house was lifted. This was done and he never rose from his seat and the bill, lacking one vote, was beaten. While it had a majority of the members present, a majority of the membership is necessary. It was too late in the session for a reconsideration. It was no fault of the proponents of the bill that it came up so late. It never lost its place in the procession but appropriation bills cannot be taken care of until the budget tax matters are out of the way.

Just as an observation the treacherous Senator is not back this session. An able Assemblyman has been raised to his place and the keen memory and long arms of the friends of hydraulic mining had a hand in this change.

This story may seem tiresome, but is told both to acquaint you with the fight and let you know something of the tortuous trail and heart breaking fight that was necessary.

(To be Continued)

So far the gravel under the Scott ranch in this place is showing favorable, although the bottom of the channel has not yet been found. Both Bob Scott and Jim Dugan are working at odd times, but as they are not able to even put in a full shift at a time, progress is slow.

Mrs. A. F. Isensee, who has been ill from taking camphorated oil instead of cough medicine, a short time ago, is rapidly recovering.

Clarence Landsburg, saw mill man of Snow Tent, was a business visitor in Nevada City Friday.

HOGE IS DOING LARGE DEVELOPMENT 250 FEET NEW WORK PAST 2 MONTHS

MOHAWK SHAFT MAKES GOOD PROGRESS NOW

With the ground getting better as the work progresses, shaft sinking at the Mohawk property is going ahead nicely. A full set has been put in by Contractor Gabbert and the work on the second one is under way. With the pumping facilities and the electric hoist available it is expected that rapid progress will be made to the 200 level where a station will be cut and a cross cut run.

ISAAK WINS ROBINSON SEAT ON NID BOARD

A. Isaak, who has a small tract of land in the Mt. Pleasant district near Lincoln, was elected director for the fourth division of the irrigation district in the election held Wednesday. W. J. Sanford, who was one of the ardent wiskerites went down to defeat ,while E. E. Burnett, who was lined up with the former management essayed a wirte-in on the ballot but he also was slaughtered. Thomas Mulcahy was returned to the board from this district with no opposition while William Ullrich did likewise from Chicago Park.

The extended contract with the power company for more revenue for the district will not become effective for another year stated manager Fred Miller the past week as the company will have to enlarge its Bear river canal to handle the increased flow.

PROMOTION BOARD HOLDS GET TOGETHER BANQUET

A banquet at the Bret Harte Inn featured the annual meeting of the Nevada County Promotion Board last week with the dining room fairly well filled for the occasion. Judge George L. Jones, as chairman of the occasion, showed to splendid effect in that capacity. A number of speakers were introduced to bring out various points.

Raglan Tuttle was called on to sound the keynote speech of the occasion. He said the time had arrived to either go forward with the organization or junk it. He suggested that the development association which has functioned in the county for a number of years be junked and a four cent county tax rate be put on to provide funds for the promotion board. The report of the secretary was read and enumerated a number of "contacts" established during the year, but stated that the colonization of the lands for which the promotion board had been organized, was not functioning. Other speakers included C. E. Edmunds, C. R. Fraser, H. W. Robinson, H. B. Cox, J. S. Corey, and S. Lee Leiter. W. E. Wright, president of the county development association listed a number of achievements of his organization and stated that it had been assisting in the financing of the promotion board the past year.

Pledge cards were handed each guest present calling for the support of the promotion idea for the coming year. A written resolution was read endorsing the work of the board the past year and this was passed viva voce.

Chief of Police Hiram Shearer is now busy tagging the canine population of this community. Bitches are assesed $4. per head and male dogs $2. If your dog gets into the pound it costs double to get it out and after five days Hi is permitted to display his excellent marksmanship.

Services will be held at 9 o'clock at St. Canices Catholic church next Wednesday morning, Ash Wednesday.

Gus Orzalli, who was quite sick, is making a good recovery.

NOTICE

The office of Dr. R. F. Werner will be ready for occupancy by the middle of the week.

Mill Run of 50 to 150 Tons Will Be Made to Determine Location of Valued Ore

In an interview with Arthur W. Hoge, the President of the Hoge Delevopment Co., he states that they have been going steadily ahead with their development work and that in the months of December and January, they have done over 250 feet of new development. Their work has been of an exploring nature to determine the location of the main views, and ore bodies, prior to determining the best place to put down their main shaft, for an economical operation. Mr. Hoge also states that it is their intention to take out some 50 to 150 tons of ore from different points of their exploration work, in order to get a good general average of the actual values in the ore from a mill test.

This Company has had some exceptionally good looking quartz, that has run very high in assay values, and Mr. Hoge is anxious to find out what it will actually average in a good sized mill test, and also as to what methods are necessary to get the best posible recovery.

The editor of this paper wishes to make a little comment on this interview to say that Mr. Hoge's policies in this regard, are safe, sound and sensible, as it is a well known fact, that a lot of the old fashioned milling methods are sadly out of date, and that millions of dollars from Nevada county's old fashioned stamp mills, have been lost to their rightful owners to be picked up later by the river operation and dredgers.

A dollar saved is a dollar earned, and consequently every mine operator should strive for as near a 100 per cent recovery as is humanly possible..

We believe that the Hoge Development Company is going to develop a big paying mine. They are in a highly mineralized zone, with ample territory for a big development work and are not stock jobbers.

TRUCK LINE REHEARING HELD AT GRASS VALLEY

The hearing of the Schenider Brothers application to open a truck line to Forest Springs, just south of Grass Valley was held the past week at Grass Valley and will be also held on March 20th and 21st in Auburn. The railroad which would be vitally affected by the establishment of such service has the backing of all the organized effort in Nevada City and Grass Valley and many witnesses were sworn and told on the stand of what the railroad meant to these communities.

FINE OPENING EVENT STAGED AT BONANZA

SMARTVILLE, Feb. 5—The main social event of the past week was the formal opening of the large new warehouse on the Bonanza Ranch and despite the stormy weather there was a throng of visitors present from various outside points and locally that packed the building to its very doors. General Manager W. G. Allen of the Ayer interests in the capacity of host for the occasion fairly outdid himself in his efforts to make the evening a memorable one. An orchestra from Sacramento dispensed sweet music for the dancing.

Andrew Bachels has been prospecting a quartz ledge on the ridge south of Goodyear Bar for the past couple of months. He has a nice prospect just now.

Howard Penrose, who is in the employ of the Richfield Oil Company in Sacramento, spent a few days here visiting relatives.

Sheriff George R. Carter and Deputy Sheriff William Ricard were official visitors in Truckee during the week.

COZY CORNER CHAT

SOME OF OUR county boosters who are all het up over demolishing the County Development Association and installing in its place the former colonization plan which now proposes to envelop the county advertising activities into a new organization with the sky as the limit, would do well to consider some of the many accomplishments of the development board which has functioned in a satisfactory way for a number of years past on relatively small capital. One of the things which stands out above all else is the routing of the Tahoe Ukiah state highway up the Harmony Ridge as against the Grass Valley Colfax scheme which was nearly put over some years ago when wiskerism was in the height of its glory. Nevada City found some earnest friends at court when it looked as if we would be backed off the map although the bond issue had designated the general route to be followed. We can thank the development board for some excellent county literature which was given wide distribution. It has seen that the county advertising fund has been wisely expended in various activities. Mr. W. E. Wright, who has been the presdent of the organization for some years past is one of the county's leading boosters and always ready to put his shoulder to the wheel at any time. Mr. J. Earl Taylor has done valiant service as secretary for a number of years. To bodily turn over this public service function which has been effective for so many years, to a practically untried experiment it to our mind taking too much hisk.

THE PROMOTION BOARD was organized to do colonization work primarily and not concern itself with matters largely concerned with the ordinary functions of a chamber of commerce. The work of the promotion board the past year will have to be judged by what it has done as a colonizing agency and not by the "contacts" it may have made in other fields of endeavor. If some of our enthusiasts want to finance the plan further out of their own pockets, all well and good, but when they propose to divert public moneys to exploit their plan, and furthermore to increase the county tax rate some four cents on the dollar, that is where we draw the line on the basis of the showing made last year.

THE MEETING the past week was a disappointment in several ways: One that it was turned into a money grabbing enterprise with everybody askd to pungle up, and other than that there was no outstanding achievement reported done. The two things that Nevada City is most directly interested in, were not even mentioned, our new turpentine industry and the Lake Vera enterprise ,both of which are vital to the future prosperity of the county. Our glorious mineral resources were sgiven but scant attention. The statistical report showed that $4999 was collected, most of which went for salary for th secretary, of the money expended. Although the report showed 13 months' activities, but ten month's salary was listed paid out. Over $4000 paid out is quite a sizable sum when no outstanding developments can be shown. As a privately financed enterprise there can be no legitimate protest from any quarter but the main effort seems to be to create sentiment to overwhelm the board of supervisors to get behind the plan with the major part of the financing with the peoples' money. That is where we are interested directly as a taxpayer of this county. We are for any enterprise that will produce results in fair measure at least for the money expended and we feel that the development board has fully justified its past existence and until there is some valid reason for legislating it out of business we prefer to see it continue as a public instituton.

NEVADA COUNTY'S MINING possibilities were directly told to more than a million readers in Southern California in an issue of the Los Angeles Evenng Herald a few days ago. It was told over the signature of The Nevada City Nugget and it has brought in a large number of queries for information on our mines and may be the means of bringing in new companies. If we could only keep our mineral resources constantly before the investing public in an effective way. That is what will open up our mines in full measure once more. The Nugget is carrying on this task as best it can each week and with its circulation covering a vast expanse of territory already, its message is being felt and many have said that it is performing a most valuable service in the community in this regard. The more pages we can issue each week, the stronger will be the message to the outside world. We have dedicated ourselves to the task of seeing the mines of Nevada county working full blast once more.

MANY COMPLIMENTARY remarks have been heard on the address given by Assemblyman Jerry Seawell before the Lions Club the past week. Jerry showed an excellent grasp of the legislative situation and it is a safe bt that Nevada county will suffer none in its representative in the assembly. He has made numerous trips up this way to keep in close touch with his constituents and that is a most commendable trait to possess. Many politicians think all they need to do it to hand out a large amount of bull a few weeks before election and it will get them by. It may—for a time. Jerry is performing a valuable service for this county at Sacramento.

HISTORY OF HYDRAULIC MINING IS INTERESTING ONE SAW ITS EARLY START IN THIS SECTION IN DAYS OF '49

(Continued From Last Week)

It had the power to prescribe just how hydraulic mining should be conducted or prohibited and laid down an iron clad set of rules for this regulation. The commission was empowered to seize public lands for dam sites upon which to build dams to restrain the debris and to take stone and timber from public lands which were to be used to build these dams and to levy a tax of 3 per centum on the gross gold recovery of hydraulic operations. These were the salient and valuable provisions of the act. In the 35 years that the Commission has been in existence not one of these provisions have been put into practice nor has any attempt been made to put them to use. Immediately after the passage of the act, hundreds of hydraulic miners made application for permits to operate under this act Many were granted to operate behind the log and brush dams. These were but temporary and had the commission had the foresight or the miners the energy to have seen that the authorized tax was levied and permanent dams built in the lower stretches to catch the debris that escaped, a different story might be written of hydraulic mining today. For insufficient as were these log and brush dams, but a comparatively small amount of debris escaped. When the structure rotted out the waters washed a channel down the center and the greater portion of the material remained high and dry out of the water's reach.

The California Debris Commission gradually grew away from the hydraulic miner and devoted more and more of its time to the cleaning of the clogged streams. It has made a splendid job of this task but seem to have lost sight entirely of the purpose for which it was created; the succor of the hydraulic miner. For many years it has used its police powers to restrain but done nothing to revive this industry. Mining by the hydraulic process without a permit where the commission has jurisdiction is punishable by one year's imprisonment in a Federal prison or a $5000.00 fine or both. So trifling with its provisions is no laughing matter.

Many causes have mitigated against an energetic fight to rehabilitate this industry.

Many of the properties have fallen into the hands of money lenders who gained owenrship by terrific interest rates; 1½ to 2 per centum per month etc As the owners died and estates with scattered ownership gained title; this added to the inertia of the mortgage foreclosing group couple with the political ballyhoo of opponents in the valley whose only stock in trade was inciting passion and prejudice made the work of ruin complete.

It remained, however, for one who never forgot the place of his birth to revive the half century old battle. Harold Cloudman, a mining engineer, born at You Bet, Nevada county, introduced a bill in the Legislature of 1924-25 approriating $10 000 00 to investigate the feasibility of resuming this industry. It passed without a dissentng vote, was signed by the governor and became a law. For a time there was no response from the miner. He did not seem to grasp what the assemblyman from Alameda was trying to do for him.

Under the provisions of the act. Lloyd L. Root, state mineralogist and W. S. Kingsbury became the commission to make the investigation. They selected Arthur Jarman, a mining engineer, to make the examinations and start the ball rolling calling a meeting of the newly appointed commission and all nterted parties It was offered all its data, agreed to make the new surverys required and bid fair to function for the purpose for which it was created. It rendered wonderful service and had two of its members refrained from giving out misleading newspaper interviews during the legislative fight of 1926-27. Assembly Bill No. 681 designed to put the Caminetti Act into effect for the benefit of the miner would have undoubtedly become a law.

The California Debris Commission is a Federal body created by an act of Congress. Its acts and permits are Federal. It is not amendable in any way to state jurisdiction. The hydraulic miner in good faith applied for a permit to hydraulic under the provisions of the act and the supplementary provisions laid down by the commission. Thereupon the engineer of the commission visited the site. The commission then advertised the application for three weeks in papers in the vicinity that would be affected. If no valid objections were entered, the plans of the barrier were given the miner, when the structure was completed the commission was notified and an engineer was sent to inspect the job. If built in accordance with the plans a permit was issued. It was then legal to operate by the hydraulic process behind it.

All through this proceeding the hydraulic miner had acted legally and in good faith.

However, as soon as he commenced his operations he was constantly hectored by agents or spies from an anti-debris association. These birds were a peculiar species whose eyesight wsa reputed more or less affected.

If the hydraulic miner was solicitous of the eyesight of these gentry; fine and dandy. But if he were careless of this small matter, woe betide him. He was immediately served with an injunction out of the state courts. The average little one-horse hydraulic mine had a fine time settling why a federal permit was amenable to state jurisdiction.

A case of this kind happened more than 20 years ago at Dutch Flat. Wm. Nicholls, Jr., a banker at that place was operating the Polar Star Mine under a permit from the California Debris Commission behind a barrier that is still standng. He was enjoined out of the Sutter County Court, but being endowed with a regular backbone defied the edict Thereupon he was arrested, taken into enemy territory, found guilty, fined $500.00 and was sent to jail for five days.

This was but one of many outrages of similar character.

These excerpts are merely a cross section taken from the report of J. Ross Browne, to the Secretary of the Treasury of the U. S. in 1868 gives some idea of the production of gold and prosperity of the Hydraulic Mining section.

Page 93, Forest Hill District, Placer county: The Dardanelles has yielded $2,000,000; the Jenny Lind has yielded $1,000,000; the Jew Jersey has yielded $850,000; the Independence has yielded $450,000; the Deidesheimer has yielded $650,000; the East and Nortwood, and Rough and Ready, and the Gore, have each yielded $250,000; the Alabama has yielded $150,000. These claims were but from 50 to 100 feet in length of the channel.

On page 101, Gold Run District, Placer County: The latter did not obtain a large supply of water until lately, and therefore its best claims have not been exhausted and it is the most prosperous hydraulic camp in California. Nine thousand inches of water are used here, requiring a payment of $1,000 a day or more in gold.

Page 121 Birchville, Nevada county: The gross yield and net profits of the claims of five of the leading companies at Birchville, for 1866, were as follows, in round numbers:

	Gross Proceeds	Net Proceeds
Irish Amer. Co.	$180,000	$133,000
San Joaquin Co. ..	134,000	68,500
Don Jose Co.....	100,000	72,000
Granite Tunnel Co.	82,000	24,000
Kennebec and American Co.	85,000	30,000

Page 124 Nevada County: Shafts were sunk on Bourbon, Manzanita, Wet, and American Hills, and the richest deposits drifted out, but the claims were subsequently bought up by a few companies, and the ground worked from the surface down by the hydraulic These claims yielded immensely, and the amount of gold extracted from the base of Sugar Loaf to the Lower workings of American Hill, a little over a mile, is believed to have reached $7,000,000 to $8,000,000.

Page 142, Sierra County: Howland Flat is now the most prosperous mining camp in the Sierra and the most productive drifting camp in the State, unless Fir Cap has surpassed it. The shipment of gold this year will be about $300,000; it was twice as much annually for four years previous to 1866. The shipment for February, 1867 was $28,000; for Mar. $10,000; for Apr. $24,000; for May, $31,000; for June, $31,000.

Page 148, Yuba County: Campton, Brown's and Hansonville—Camptoville is an old channel which appears north at Brandy City, in Sierra County, and south at San Juan,, in Nevada county. At Camptonville it appears near the top of a high ridge, and is nearly worked out. There are three hydraulic companies at work there, each using about 200 inches of water. The shipment of gold from Camptonville is now about $500,000 per year; seven years ago it was $700,000.

Page 166, Plumas County: The yield of La Porta and the placers which sold their dust there, in 1857 was $4,000,000 annually, now is $1,000,000.

Page 84, El Dorado County: The Friar claim has yielded $50,000 but after leaving the surface the miners found the cement so hard they could not wash it and nothing was done on it for years. A San Francisco Company is now at work, opening it by a tunnel. to be 1,000 feet long, and to be finished in 2 years.

Page 84, El Dorado County: The Live-oak claim is worked through a tunnel and has yielded $50,000 or $60,000. Under this claim runs the blue channel.

To be Continued)

Mr. and Mrs H. O. Kohler of Washington were visiting in Nevada City Friday.

Miss Milli Clerkin of French Corral spent some time here visiting friends.

C. H. Jones of French Corral was a business visitor here Friday.

Miss Helen Searls attended the tenth wedding anniversary of her brother, Dr. Henry Searls and wife in San Francisco.

MADERA COUNTY

The Minaret Mines Co. have made a recent strike of high grade ore it is reported. It is below the 100 foot level. At 135 feet it widened to three feet of high grade ore and promises to fill the shaft, which was being sunk on a body of $50-ore. It is intended to sink to 300 feet. Regular shipments will be made as soon as the roads are good Frank McGovern is superintendent of the mine.

The Lewiston dredge has been sold to R. F. Lewis and L. K. Requa of San Francisco. It is on the Trinity rive where it has worked for the past six years. New ground was also purchased by the new owners and they plan continuous operation.

Misses Evelyn O'Connor, Iris Murchie, and Dearestine Daniels, all of whom teach in the Roseville schools, spent last week end here with relatives.

John Hooper and daughter, Mrs. Wilborn Smith and husband, were called here from Richmond by the death of the former's mother, Mrs. Mary Hooper.

FRENCH CORRAL ITEMS

FRENCH CORRAL, Feb. 9, (Special to The Nugget)—Ground hog saw shadow O. K. Well, this writing finds us in real winter. A surprise snowstorm Wednesday a. m. Three inches fell at this place. Thursday a. m. was the coldest yet, with 12° at seven a. m.! That is some cold for this place, yet the pot plants on the front porch are not frozen!

This weather interferes with our plans. The S. J. R. W. A. was planning on a dance at French Corral for the 16th, but this weather makes it uncertain and if we are to have "six weeks" of it dances are out of the question.

A delegation of Columbia Parlor, No. 70's Native Daughters planned to join with Laurel Parlor in meeting Grand President Louise C. Heilbron the night of February 6th but owing to bad weather and sickness had to give it up.

Friday, the 1st was a happy day at the French Corral school. At the noon hour a surprise birthday dinner was given for Rex Dalberg. All sorts of good things were on the "festal board" and these were heartily enjoyed by parents and pupils. Rex's mother brought a cake bearing eleven candles, which told the number of his years. Rex also received many nice present and all was a complete surprise to the little fellow. Mrs. Schwartz is like a kind mother to her pupils, always planning some pleasure for them, and all love her devotedly.

W. P. Clerkin, W. E. Moulton and S. McCullough made a trip to Grass Valley Friday evening to meet with the directors of the N. I. D. in the interest of the S. J. R. W. A. Fred Conner of Sacramento, chairman of the ways and means committee was also in attendance.

Mr. and Mrs. Roy McNamara of Tyler visited relatives in French Corral Saturday and Sunday.

W. E. Moulton made a business trip to Sacramento Saturday and returned Sunday.

Mrs. K. Broyles and family of Sacramento visited the family of H. Barron last week.

Ralph Kesler and Charles McCullough were Sunday visitors from San Juan.

Rob McCullough of San Juan spent several days with W. P. Clerkin, assisting with the work.

Mrs. Mary Mitchell of Grass Valley is visiting her brother, Thomas Meyers of this place, also her friend, Mrs. J. Kirkwood.

Mr. and Mrs. Wm. Wright of Pleasant Valley were visiting in French Corral Tuesday.

A. Browning made a business trip to Downieville Thursday.

W. P. Clerkin and sister, Miss Millie, made a trip to Nevada City Wednesday.

Harry Browning, son of Mr. and Mrs. A. Browning, is again on the sick list.

We are pleased to learn that the little son of Mr. and Mrs. F. S. Wood of Sweetland has fully recovered from his recent illness.

Miss K. O'Conner is slowly recovering from the effects of a fall she had on election day in November, at which time she broke several bones in her hand and wrist and sprained muscles in arm and shoulher. She has had a very serious time.

There's peace in the household guarded by Castoria. Peaceful sleep for Baby. Uninterrupted rest for Mother. For a few drops of pure Castoria will quiet any fretful infant. Or put the little one back to sleep when there's an upset during the night.

Parents, don't try to do without good old Castoria! It isn't fair to the baby, and it makes things hard for you. You can't give Baby medicine meant for grown-ups—or shouldn't! Castoria is the solution. It is always safe. It always does the work. And although it acts as swiftly as an opiate or a narcotic, it contains neither. *Castoria is purely vegetable.* Give it whenever there's constipation, colic, diarrhea.

No less than five million modern mothers have come to depend on Castoria, for twenty-five million bottles were bought last year! Get yours today; don't wait for some night when it's needed, and the drugstore is closed!

Children Cry for CASTORIA

TYLER JOTTINGS

CHEROKEE, Feb. 9, (Special to The Nugget)— The Ridge people were certainly surprised when they awoke Tuesday and saw five inches of snow. Wednesday night was the coldest night we have had for years. It froze house plants in the house. the north wind made it so much colder.

Mr. and Mrs. E. Frost have returned from San Francisco.

James Phelan made a business trip to Nevada City Thursday.

J. Anderson caught a large coyote in his traps. They are very plentiful here, and are now watching for the young lambs.

Miss Carmel Phelan of Grass Valley visited her parents, Mr. and Mrs. K. J. Phelan, Saturday and Sunday.

Mr. and Mrs. R. McNamara were visiting in French Corral the last of the week.

Mr. R. Maitland is improving and feels much better since he came up here.

Al Tackett was a visitor here Tuesday from Nevada City.

While starting his auto the other day Alton Moody received a severe blow in the fact. The crank flew and hit him in the face and as a result he has a bruise onhis cheek.

Mrs. L. Day of the Siberia mine was visiting Mrs. T. J. Flynn Wednesday.

Misses Helen McCullough and Evelyn Kessler and Rob McCullough of San Juan were visiting friends here Thursday evening.

Eloise Phelan and James Phelan were visiting in San Juan Friday.

Wednesday night was one of the coldest of the season the mercury falling down to 12 ,and most every water pipe in town was frozen. A strong north wind made the cold much more penetrating.

ITS THE RESERVE THAT COUNTS

In all the games of life, the victories go to those who have something in reserve. In muscular activities, it is the man who has the most stored energy upon which he can draw, that determines who will win. In war the armies with the greatest reserves, usually hold the balance of power. This holds true in matters of business as well. A well fortified reserve is a big aset for any business or for any man.

A savings acocunt is the best method of buliding up a reserve that will prove worth all the sacrifice it may cost. No one can tell when he may need it. The wisest policy is to start saving and build up to the day when the reserve will determine some important turning point in your life.

CELIOS ROMP INTO FIRST PLACE BOWLING

The Celio pin spillers staged a real combeack in the Elks bowling tournament Thursday night putting the Kopp Bakers down for the count and walked all over them into first place. The scoring while not sensational shows that the teams are exceptionally well balanced, the Scheemers being the only ones to fall below the 2000 mark in totals the past week. Only 481 pins separate top and bottom teams in pin totals this week in four weeks play.

By rolling three games better than 700 the Celios rolled up a pin total of 2151 for the week. The Nugget publisher by running six strikes in a row in the opening game and by finishing up with five of the pin mowers in the closing session, ran up high total of the seaosn with 582 pins, topping Jackson's previous high mark of 580 averaging 194 for the night's play and making season average of 172. Pierce ran out two good games, but his second effort pulled him down. He ranks in second place in the individual standings. Fortier and Curnow both rolled good averages for the week. Hoge pulled off some sensatoinal stuff when he ran in four doubles and romped into second place for pin totals for the week. His scores of 180, 152 and 159 are some of the best bowling put on by any of the new bowlers this season and mark him a coming sharpshooter. He throws a pretty ball from the port side. There were but two games over the 200 mark for the week while Tamblyn just broke the double century. Hogan come near the coveted mark with a 191.

The Goynes came out of their batting slump long enough to take two from the fast Nickless organization but are still in the cellar. Captain Dick can get louie located his team is going to show some fancy maneuvers. His last game was more like his usual scoring.

There has been more talk cropping up regarding a picked team or two to take on the Grass Valleyites this spring.

BASKETBALL GAMES

Wednesday, February 6, at Redmen's Hall the "A" and "B" teams played the corresponding teams of Wheatland. The "C" team played the "C" team from Auburn.

The "C's" were defeated by a score of 17-8. The "B" team had no trouble in defeating Wheatland's "B's". Our team showed more practice and teamwork than did Wheatland. The score was 30-12. The "A" game was interesting as the Wheatland "A's" kept the score quite close until the last quarter, when our boys succeeded in making more field goals than did Wheatland. The score was 24-17 in our favor.

The civics class club sold candy Friday night at the G. V. N. C. basketball game. The girls made the candy at home so it was good home made candy. The proceeds of this sale will go towards the purchase of a new flag for the school. The old one is quite a disgrace to the school so a new one is just what we need. The school appreciates the spirit of the civics club.

Mr. Pedersen— "Where is the windshield in an automobile?"

Ray Fagan—"I'n the engine".

Miss Hoffman, (quoting from the poem, "If" by Rudyard Kipling)— "If you can keep your head when all about are losing theirs". Who is the great American? example of this?"

Ruth—"Lindbergh". (Miss Hoffman was referring to Lincoln).

EDITORIAL

As a representative of the senior class I wish to thank the Girls' Association for the unselfishness which prompted it to prepare a luncheon Thursday, the proceeds of which will go towards the "Quill" fund. It is seldom that any organization will do anything of this kind except for its own needs, which makes us the more grateful.

The profits of the luncheon were approximately twenty dollars which the "Quill" staff can and will make good use of. Cooperation such as this instills "pep" into the "Quill" workers. It is this kind of cooperation that will put the annual through.

NEW HONOR SOCIETY

The new honor society met on Wednesday, February 6, to elect new officers. The following officers were elected: Curtis Roberts, vice-president; Alberta Baker, secretary; and Nadine Sutton, treasurer. Nancy Jones still holds the office of president. They also discussed plans for a Valentine party. The purpose of this is to welcome new members and to entertain the Grass Valley Honor Society. The new members in the society are Betty Bettles and Curtis Roberts.

INVITED GRASS VALLEY

Several students from Nevada City high school went down to Grass Valley to extend to the high school student body a formal invitation to the game which is to be held here Friday. The students, who repersented us were Elbridge Skeahan, Carl Hieronimous, Bob Polglase ant Alberta Baker.

SOPHOMORE PARTY

The sophomore class held a gathering in Miss Taylor's room on Tuesday, February 15, for the purpose of making plans for the sophomore party. But as it was found that all the students had not yet paid their Student Body dues definite plans were postponed until next Tuesday whn another meeting will be held.

Subscribe for The Nugget

SEMESTER CARDS

On February 4, there was an atmosphere of fear through out the whole school. The reason was— semetser reports were to be given out. However, everyone received satisfactory cards except a few. Mr. Isensee stated that the reports of the students were, as a whole, quite complete and satisfactory. The percentage of failures among the upper classmen was lower than at any previous period. The freshmen disappointed us with too many failures, but there is gratification in the fact that even the failures were distributed among a few students.

THEATRE PARTY

On the evening of February 4, about thirty freshmen, members of the freshmen civics class went to a theatre party. They were chaperoned by Mr. and Mrs. Kjorlie and Mr. Pedersen. The picture was "Ramona". Except for a few noisy outbursts during the comedy the pupils were, as a whole, well behaved. It must be taken into consideration that they were "freshies" out for a good time. After the show they went to the Tip Top Tamale Shop for refreshments.

PEP SESSIONS

Nevada City High has been having pep meetings during the past week in preparation for the game with Grass Valley on Friday night. The new songs and yells which have been practiced have been successful.

ENGLISH CLASS STORIES

Stories were told by the students of the English classes last Tuesday. Some were romantic, others mysterious, adventurous, historic or educational. The classes spent a very interesting day listening to these stories.

SERVE LUNCH

The luncheon, that was served on Thursday by the Girls' Association for the benefit of the "Quill" was a great success. The menu consisted of sandwiches, salad, macaroni, pickles, olives, and cakes. Dancing was enjoyed after the luncheon. The faculty as well as the students patronized this big event, and everybody had a good time. It was considered a big success. The Girls' Association thank the students who patronized this luncheon and who showed such an interest in their school.

STAFF SELECTED

The following people have been selected as the members of the newspaper staff for the next two weeks: editor, Vera Toccalini; senior reporter, Lorenz Cicogni; junior reporter, Bob Polglase; sophomore reporter, Evelyn Granholm; freshman reporter. John Doctor.

THOSE NEW SONGS

Have you heard that B. V. D. song?
"Underwear Where My Baby is Tonight?"
—that vegetable song?
"In a Little Spinach Town?"
—that baby rag?
"Didee, Didee, Didee"
—that dirty song?
"Muddy Waters"
—that ghost song?
"I Ain't Got No Body and No Body Cares For Me"
—that waddle song?
"Waddle I Do When You Are Far Away?"
—that garter song?
"You Garter See Mamma Every Night"
—that lazy man's song?
"Moonbeam, Kiss Her For Me"
—that asthma song?
"Asthma Baby Now?"
—that orange juice song?
"Orange Juice Sorry You Made Me Cry"
—that flapper prophecy song?
"Just a Rainbow Round My Shoulder"
—that tamale song?
"Jus' Tamale and Me and the Baby Makes Three"
—that Dago song?
"Dago Wild, Simply Wild, Over Me"
—that tango song?
"Tango Rain No Mo'"
—that skating song?
"I'm Sitting on Top of the World"

Mr. Pedersen—"How many engines has a locomotive and why?"

Donald McCarrie— "The locomotive has two engines, one to burn overnight and the other to run during the day".

DONT FORGET ABOUT HI-HEAT COAL

OLD FOLKS SAY DR. CALDWELL WAS RIGHT

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice.

He treated constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, a combination of senna and other mild herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle will last several months, and all can use it. It is pleasant to the taste, gentle in action, and free from narcotics. Elderly people find it ideal. All drug stores have the generous bottles or write "Syrup Pepsin," Dept. BB Monticello, Illinois, for free trial bottle.

NURSES know, and doctors have declared there's *nothing* quite like Bayer Aspirin for all sorts of aches and pains, but be sure it *is* genuine Bayer; that name must be on the package, and on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box:

is the trade mark of
Bayer Manufacture
of Monoaceticacidester of Salicylicacid

CLEAN CLOTHES FOR NEW YEAR

If you want that suit or dress to be spick ad span for the holiday dinner, bring it to our plant in Grass Valley by next Thursday night and it will be ready for you the following Monday. If you leave it at our Nevada City office at the National Hotel before Thursday evening, it will be delivered Monday evening ready for you. Service and prices just what you will like al lhe way.

LEGAL NOTICE

SUMMONS

In the Superior Court of the State of California in and for the County of Nevada

T. C. BIGELOW, Plaintiff,
vs.
W. S. BIGELOW, and all persons unknown who have or claim any interest in or lien upon the real property hereinafter described, Defendants,

The People of the State of California send greetings to: W. S. BIGELOW, and all persons unknown who have or claim any interest in or lien upon that certain real property situate and being in the County of Nevada, State of California, and more particularly described as follows, to-wit:

All that portion of the East half of Section Thirty-six (36) Township Eighteen (18) north, Range Eight (8) East, M. D. B & M., described as follows, to wit:

Beginning at a point at North 31° 31' West 2575 feet from the South East corner of Section 36 Township 18 North, Range 8 East, M. D. M., thence true bearings, North 33° 45' East 385.44 feet; thence North 64° 00' East 283.80 feet to a 18 inch pine; thence North 46° 27' East 167.64 feet; thence North 33° 41' East 135.30 feet; thence North 3° 18' West 136.62 feet; thence North 58° 00' West 186 12 feet; thence South 84° 45' West 157.08 feet; thence North 4° 40' East 99.00 feet to a point; thence North 18° 00' East 818.40 feet; thence South 72° 00' East 665.94 feet; thence South 18° 00' West 2146.32 feet; thence North 69° 42' West 613.92 feet; thence North 264.00 feet to the place of beginning; excepting therefrom so much thereof as lies within the exterior boundary lines of Mineral Lot No. 40 known as the Lucky Joe Extension

Subject to that certain Right of Way reserved in deed executed by Wright Shaw to J. G. Hall, dated October 22, 1891, recorded February 10, 1892 in Book "78" of Deeds at page 337 et seq., Records of Nevada County.

You are hereby directed to appear and answer the complaint in the action entitled as above brought against you in the Superior Court of the State of California in and for the County of Nevada, within ten days after the service on you of this summons, if served within said county, or thirty days if served elsewhere, and you are hereby notified that unless you appear and answer as above required the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract or will apply to the court for any other relief demanded in the complaint, including the partition or sale of the real property hereinbefore described.

Given under my hand and the seal of the Superior Court at Nevada City, State of California, this 5th day of February, 1929.

GEORGE COUGHLIN, Clerk,

Date of First Publication, February 11, 1929.

Dates of Publication, Feb. 11, 18, 25; March 4, 11, 18, 25; April 1, 8, 15, 22, 1929.

FROM OUR READERS

Editor "The Nugget",

In view of the excellent and well-judged publicity for Nevada County and its many delightful attractions, running all through the recently published booklet, issued by the Sacramento Region Citizens Council, we wonder whether your editorial of January 14 is strictly fair. It is based upon your statement that the map, at the center of the booklet does Nevada county an injustice. If this be so, the two Nevada county photographs on the inside back page, the special Nevada county "write-up" equal in length to that of any other county, and the frequent special mentions of Nevada county on pages one, three, eight, twelve, fifteen, twenty-three, —to say nothing of the article on "Trailing the Forty-Niner", with its conclusion, "Half the Gold was Never Mined!"—the article on "Touring the Forty-Niner Trail" with its promotion of the Yuba river country, the article on "Hunting and and Fishing", and especially that on "California's Mines", listing eleven minerals that are found in Nevada county—these things, I say certainly prove that Nevada county was by no means neglected.

Indeed, the booklet as a whole undoubtedly constitutes the finest promotion Nevada county has ever had — and we are distributing 50,000 copies all over the United States.

As to the map itself—we would be gravely to blame if we were, in advance of actual construction, to indicate that a certain route is actually a fine and finished highway whereas it is in fact as yet unfinished. Every tourist whom we so

First Publication, January 28th. 1929.

deceived would have a legitimate grievance against the entire Region. We are solidly with you in hoping that the Tahoe-Ukiah highway and the "bottleneck" on the Yuba Pass highway will be made into first class highways at the earliest moment. We are working, and shall continue to work, to that beneficial end.

Meanwhile, you are erroneous in thinking, and stating, that Nevada county has "been a contributor for the past two years to the upkeep of the Council". It has not been a contributor this year. All the excellent publicity which I mention has been donated to you free by the Council, and paid for by other counties.

Do you not think, for the sake of a better spirit of get-together in this wonderful Region of ours, that you should counterbalance your critical editorial by according this letter an eqpal prominence? And if there is at any time a service you think the Council could render you, please accept our sincere invitation to propose it to us. We shall do our best.

Cordially,
Ernest Hopkins,
Director of Promotion.

(Anent the above written by Mr. Hopkins, this paper is publishing the letter in full, but it still is of the opinion that the ancient map used does this county a positive injustice in spite of whatever editorial attention has been given us. The Tahoe Ukiah route east from Nevada City is worthy a place on the map at the present time as it

LEGAL NOTICE

State of California
Department of Public Works
Division of Water Rights
Sacramento
Application No. 5984

NOTICE OF APPLICATION TO APPROPRIATE WATER

NOTICE IS HEREBY GIVEN, That Bart Sweeney, Cf. J. F. O'Connor, County Surveyor, Grass Valley, Calif., has under the date of July 17, 1928, applied to the Division of Water Rights, Department of Public Works, State of California, for a permit to appropriate unappropriated water, subject to existing rights.

Descripton of Project

Water to be appropriated from Logan Canyon, tributary to South Yuba River, County of Nevada.

Amount applied for: 10 cubic feet per second.

Diversion season named: Jan. 1 to Dec. 31 of each season.

Water to be used for mining purposes.

Point of diversion within NE¼ of NE¼ of Sec. 4, T. 17 N., R. 10 E., M. D. M.

Place of use described: within SE¼ of SE¼ of Sec. 4, T. 17 N., R. 10 E., M. D. M.

Water to be returned to Logan Canyon within SE¼ of SE¼ of said Sec. 4.

Relative to Protests

Blanks upon which to submit protests will be supplied free by the Division of Water Rights upon request.

Any person desiring to protest against the granting of such permit shall within 60 days from date hereof, file with the Division of Water Rights, Sacramento, California, a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the application and shall contain the following information:

(1) Statement of the injury which would result from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of such land or place of use and of the point of diversion of th ewater.

A copy of the protest should be sent to the applicant and this office notified that the same has been done.

Dated: Sacramento, California January 11, 1929.

HAROLD CONKLING,
Chief of Division of Water Rights.
First Publication, Jan. 21,1 929.

SUMMONS
No. 5713

In the Superior Court of the State of California, in and for the County of Nevada.

ECHO M. GOODWIN and LULU GOODWIN, his wife, Plaintiffs,
—vs—
JOHN W. O'NEILL; A. A. CHARONNAT; I. C. LINDLEY, S. T. ALLEN; NEVADA IRRIGATION DISTRICT, a corporation, AND ALSO ALL OTHER PERSONS UNKNOWN CLAIMING ANY RIGHT, TITLE, ESTATE, LIEN OR INTEREST IN THE REAL PROPERTY DESCRIBED IN THE COMPLAINT ADVERSE TO PLAINTIFFS' OWNERSHIP OR ANY CLOUD UPON PLAINTIFFS' TITLE THERETO, Defendants.

Action brought in the Superior Court of the State of California, in and for the County of Nevada.

W. E. WRIGHT, Attorney for Plaintiff, Nevada City, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO: JOHN W. O'NEILL, A. A. CHARONNAT, I. C. LINDLEY, S. T. ALLEN, NEVADA IRRIGATION DISTRICT, a corporation; and also all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to Plaintiffs' ownership, or any cloud upon Plaintiffs' title thereto, Defedants.

You and each of you are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, within Ten (10) days after the service upon you of this summons, if served within this County, or within thirty (30) days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required the said Plaintiffs will take judgment against you for any money or damage demanded in the Complaint as arising upon contract or they will apply to the Court for any other relief demanded in the Complaint.

The said action is brought by the above named Plaintiffs against the above named defendants, and each of them, to quiet Plaintiffs' title to the land and real property described in the Complaint on file in said action and hereinafter particularly described, and to determine the adverse claims of the above named defendants, and each of them, and of all unknown persons to, and clouds upon the title to the said real property and the whole thereof pursuant to the provisions of Sections 749, 750 and 751 of the Code of Civil Procedure of California, and that said real property is situate, lying and being in the County of Nevada, State of California, and is particularly described as follows, to-wit:

All those certain lots, pieces or parcels of land situate, lying and being in the County of Nevada, State of California, and bounded and particularly described as follows, to-wit:

The North West quarter (NW ¼, the West half (W½) of the West half (W½) of North East quarter (NE¼); the North Half (N½) of South East quarter (SE ¼) and the South West Quarter (SW¼) of South East quarter (SE¼) of Section Eleven (11), Township sixteen (16) North, Range 9 East, Mt. D. B. & M.

The object of said action is to obtain the judgment of the Court against said defendants and each one of them, known and unknown as follows:

That all adverse claims to, and all clouds upon the title of plaintiffs to said real property or any and every part thereof be determined by the judgment and decree of said court, and that it be decreed that plaintiffs are the sole owners in fee of said real property and the whole of said real property herein described, being the same real property described in the complaint of Plaintiffs on file herein and that plaintiffs are in possession of the property and entitled to the possession of the said real property, and the whole thereof, and that the defendants have not, and that no one of said defendants, including the unknown persons made defendants herein, have any right, title, estate, lien or interest of any kind whatsoever, in or to or on the said real property or any part thereof, and that said defendants, and each and every one of them, known and unknown be forever debarred, enjoined and restrained from making or asserting any claim whatsoever in or to said real property, or any part thereof, adverse to plaintiffs, and that the title of said plaintiffs in and to said real property and the whole thereof be forever quieted and adjudged good and valid, and for such other and further additional order, judgment, decree and general relief as is meet and proper in the premises, and for costs of suit.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Nevada, this 14th day of January, A. D., 1929.

GEORGE COUGHLAN,
[SEAL] Clerk of said Superior Court.

NOTICE

On October 16, 1928, the Ramona Hotel at San Francisco changed hands and was taken over by two well known Hotel men, Mr. W. R. Banta and Mr. Al Malpas.

Mr. Banta and Mr. Malpas are doing everything in their power to make the Ramona an hotel that aters to strictly out of town people extending every courtesy and giving personal attention to their out of town guests.

The Next time you come to San Francisco stop at the Ramona Hotel, 174 Ellis Street.
